

Managed Print Service

Are you pouring £000's down the drain with unmanaged copying and printing?

Few organisations stop to consider the ongoing expense associated with document imaging, and ongoing print management. It's usually an uncontrolled activity with little or no point of ownership. Leading market analysts, Gartner, estimate that businesses spend as much as 3% of their revenues on document output alone.

Discover how a Managed Print Service from Capital can reduce your print costs by up to 30% and help limit your impact on the environment.

...giving you control of your documents

What is a Managed Print Service?

This is a single source, all inclusive service covering the supply, maintenance, consumables and support for all your copying, printing, scanning and faxing devices – the optimal way to manage your fleet. You benefit from greatly reduced costs, a single supplier and one fully detailed, simple to understand quarterly bill.

Our Managed Print Service ensures you have a fully integrated document solution, managed efficiently and tailored to suit your current and future business requirements. Our solution will reduce costs, streamline your operations, give you control of your documents and conserve resources.

We begin the process by carrying out a detailed on-site survey to analyse your current fleet of devices and copy/print volumes to determine the total cost of owning and running them. Our clear objective is to remove any inefficiencies like redundant, underutilised and costly devices. We then advise on appropriate printing policies and software solutions that will give you the true cost of running your entire fleet, broken down by device, user and department. By accurately measuring and monitoring your costs, it's then much easier to control and reduce them. We can also provide remote technical fixes to ensure that all your document devices have the maximum uptime and manage your ongoing supplies requirements.

And with one supplier for all your service and supplies, you only need to manage one invoice – simple!

Reduce your print costs by up to 30% and reduce your impact on the environment

Bottom Line Benefits

- Up to 30% reduction in print costs
- Up to 25% reduction in consumable costs
- Up to 40% reduction in IT support calls
