# HP ePrint

By HewlettPackard

The HP ePrint App makes printing easy, from your iPhone, iPad, iPod Touch, Android phone or Blackberry, whether you are at home, in the office, or on the go.

Main Features:

- Print from your phone over Wi-Fi, via the Internet to an HP ePrint printer, or directly to HP wireless direct supported printers. [1] [2]
- Print to convenient HP Public Print Locations, like print/copy stores, hotels, and airport lounges. [1] [3]
- Supports HP ePrint Enterprise (service and internet purchased separately). For more information, check http://www.hp.com/go/eprintenterprise [4]
- Select and print photos and content from your email and the web. Supports most major file types (Microsoft Office documents, web pages, email attachments, photos, PDF and text files).

Example iPad Screenshots

- Free
- Size: Apple – 15.6 MB
    - Android – 2.2M
    - Blackberry – 728 KB
- Requires: iOS 4.2 or later.
    - Android 2.1 or later
    - Blackberry OS 4.5 or later [5]

- Developer: Hewlett Packard
- © 2008 – 2012 Hewlett-Packard Development Company, L.P.
- Rated 17+ due to web access through the integrated web browser.

Mobile Print Solutions

[1] May require HP Web Services Account Registration or one-time mobile ePrint service activation from the HP ePrint app. Requires internet connection and email-capable device. More information: www.hp.com/go/eprintcenter

[2] Solution works with PCL5/6, PCL3, PCL3GUI printers (HP and non-HP).

[3] Usage of HP ePrint app at mobile print locations requires separately purchased wireless internet service. Availability and cost of printing varies by mobile print location. Public Print Location program availability in US, Canada and select European countries.

[4] HP ePrint Enterprise requires HP ePrint Enterprise server software.

[5] Other apps must provide individual access to files and enable exposure to these registered document type handlers from Android.

[6] Printing capability via ePrint; requires Blackberry Internet Service for HP Public Print Locations; using Blackberry with HP ePrint Enterprise requires BlackBerry Enterprise Server (BES) deployment. Printing via a direct wireless connection with printer is not supported for BlackBerry® devices.

Supported Devices:
Supports all HP ePrint enabled Printers and over 200 HP networkable legacy printer models including HP Officejet, HP LaserJet, HP Photosmart, HP Deskjet and HP Envy. [2]
